First phase: Curricular assessment

The selection is made through the evaluation of the motivation letter which will include relevant activities the career development plan and curriculum vitae, which will include the candidate's scientific and professional career path focusing on the relevance, quality, and timeliness of the criteria referred to in Article 5 (2) (a) to (d) of the RJEC. The following assessment criteria, and the candidate's ability to perform the duties required, will be considered:

CA) Scientific, technological production, cultural in the last five years, deemed most relevant by the candidate;

CB) Activities of applied research or based on practice, developed in the last five years, that the candidate considers with greater impact;

CC) Activities of extension and dissemination of knowledge, namely in the promotion of the culture and the scientific practices, developed in the last five years, that the candidate considers more relevant;

CD) Project management activities and programmes of science, technology and innovation, or experience in observation, monitoring and evaluation of the scientific and technological system or higher education in Portugal or abroad developed in the last five years.

The period of five years referred in the evaluation criteria may be increased by the selection panel, at the request of the candidate, when justified on grounds of suspension of scientific activity for socially protected reasons, namely for reasons of parental leave, prolonged serious illness, and other situations of unavailability for work legally protected.

Second phase: Interview

If the selection panel considers it necessary for the evaluation, the candidates with the highest scores of the curricular assessments will qualify for the second phase, consisting of an individual interview, either face-to-face or through a videoconference. The interview will be weighted, at most, as 10% of the final classification score and will serve the sole purpose of clarifying aspects related to the results of scientific research of the candidates.

Functioning of the Selection Panel

Each member of the selection panel will assess all the admitted candidates in all the factors from CA to CD scoring between 0 and 100, and must present the reasons for the scores given. Abstention is not allowed. A similar procedure will be followed regarding the candidates that are called for the interview. The candidates that are not called for an interview will have 0 points in the second phase.
