

## ATA N.º 2

CCMAR/IJ/01/2024

### JUNIOR RESEARCHER (M/F) Molecular Biology - 1 VACANCY

**Project:** HORIZON-MISS-2022-OCEAN-01-03-101113045 | Research project C644915664-00000026

### ANNEX 2 CURRICULAR EVALUATION

Candidate: Babak Najafpour

Criteria	Rationale	Score
CA) Scientific and technological, cultural or artistic production in the last five years, deemed most relevant by the candidate to perform the project tasks, in accordance with the value defined. The content of the scientific production is more relevant than the publication metrics, or the publisher entity (40%);	Ten publications, most as first author, but only a few are related with the topic of the call.	75
CB) Activities of applied research or based on practice, developed in the last five years, that the candidate considers with greater impact for the tasks to perform in the project, in accordance with the value defined (35%);	Researcher very experienced in areas related with the call (bioinformatics, metagenomics) but not in microalgae.	75
CC) Activities of extension and dissemination of knowledge, namely in the promotion of the culture and the scientific practices and developed in the last five years, that the candidate considers more relevant (10%);	Researcher with several presentations in conferences, including oral presentations.	70
CD) Management activities of scientific projects and programmes of research, technology and innovation, or experience in observation, monitoring and evaluation of the scientific and technological system, or higher education, in Portugal or abroad (15%).	Young researcher with participation in scientific projects but with limited experience in management and without demonstrated experience in student supervision.	60
<b>Final score</b>		<b>72.3</b>

Candidate: Tânia Aires

Criteria	Rationale	Score
CA) Scientific and technological, cultural or artistic production in the last five years, deemed most relevant by the candidate to perform the project tasks, in accordance with the value defined. The content of the scientific production is more relevant than the publication metrics, or the publisher entity (40%);	Very good number of publications, most of them on the topic of the call.	85
CB) Activities of applied research or based on practice, developed in the last five years, that the candidate considers with greater impact for the tasks to perform in the project, in accordance with the value defined (35%);	Experienced researcher with very good skills on the techniques needed to develop the projects including in the field of the call.	95
CC) Activities of extension and dissemination of knowledge, namely in the promotion of the culture and the scientific practices and developed in the last five years, that the candidate considers more relevant (10%);	Several presentations in conferences (most are oral presentations) on subjects relevant for the call.	80
CD) Management activities of scientific projects and programmes of research, technology and innovation, or experience in observation, monitoring and evaluation of the scientific and technological system, or higher education, in Portugal or abroad (15%).	Researcher experienced in lab and project management as well as student supervision.	85
<b>Final score</b>		<b>87.8</b>
